SUMMARY

AWS Certified Cloud Practitioner with hands-on experience designing and deploying cloud-native and DevOps-driven systems on AWS. Experienced with serverless architectures, CI/CD pipelines, containerization, and infrastructure automation. Strong security-first mindset with focus on least-privilege IAM, encryption, and system reliability. Actively seeking an entry-level Cloud / DevOps role.

WORK EXPERIENCE

Tecdatum

Mar 2026 – May 2026

Software Development Intern

- Developed and maintained web application features using **ASP.NET Core MVC** for backend services and **React** with **Bootstrap** for a responsive, component-driven frontend.
- Designed and integrated RESTful APIs, performing thorough endpoint testing and validation using **Postman**.
- Collaborated with the development team to implement new features, debug issues, and improve overall application performance and reliability.

Bharat Dynamics Limited (BDL)

Jun 2024 – Jul 2024

- Designed and developed an Online Inspection Memo System to digitize inspection workflows and improve traceability.
- Implemented backend services using Java (DAO) and MySQL with role-based access control and optimized SQL queries.
- Built a secure web interface using JavaScript, HTML, and CSS, integrating backend APIs.
- Collaborated with cross-functional teams to gather requirements, debug production issues, and improve system reliability.

PROJECTS

Serverless Blog with Markdown Editor

AWS, React

Designed and deployed a fully serverless blog platform using AWS Amplify, S3, and CloudFront. Implemented user authentication with Amazon Cognito, Markdown-based content creation, static site generation, and global CDN-backed delivery for scalability and performance.

Private Chat v1 — End-to-End Encrypted Messaging

JavaScript, Web Crypto

Built a peer-to-peer encrypted messaging system using ECDH key exchange and AES-GCM encryption. Implemented identity verification, secure session establishment, disconnect handling, and a clearly defined threat model with strict trust boundaries.

CERTIFICATIONS

AWS Certified Cloud Practitioner — Amazon Web Services (2024)

EDUCATION

2022 – 2026	B.Tech in Computer Science, SRM University AP	(CGPA: 6.67/10.0)
2022	Class XII, Telangana State Board of Intermediate Education	(715/1000)
2020	Class X, Board of Secondary Education, Telangana	(10/10)

SKILLS

Languages	Java, Python, JavaScript, C++
Cloud	AWS (Lambda, S3, RDS, Cognito, CloudFront, Amplify)
DevOps	Docker, CI/CD Pipelines, Linux, Git, Infrastructure-as-Code
Databases	MySQL (Schema Design, Query Optimization)
Security	End-to-End Encryption, ECDH, AES-GCM, Least-Privilege IAM
Tools	Git, GitHub, Linux CLI, Postman
